

TREZZA[®]

M A T

Water Draining / Non Slip

SHINDO has developed an outdoor entrance mat that repels stains and water - perfect for rainy days. It helps reduce the risk of slippage, as well as the amount of time spent cleaning your space. Its durability ensures that you can rely on this entrance mat without worry.

FEATURES

WATER DRAINAGE

This mat is made of knitted 3D mesh backed by perforated rubber for quick, easy drainage.

DIRT REMOVAL

The composition of our entrance mat has the additional benefit of enhanced dirt removal from shoe soles. This is due to the deceptively large surface area; the 3D knit structure can remove far more debris than a flat surface or rug.

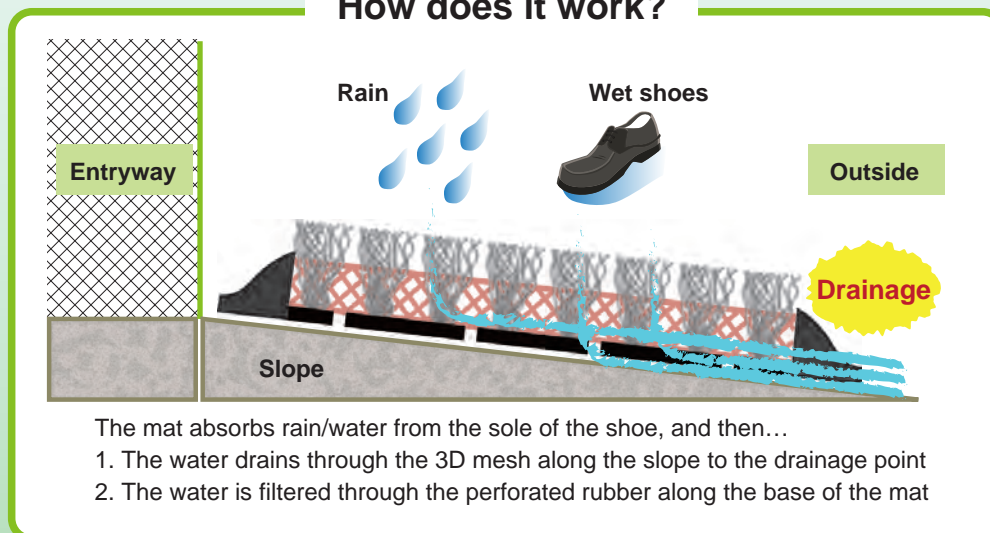

LIGHTWEIGHT

In comparison to similar offerings, our entrance mat is surprisingly lightweight and can be easily moved for ideal positioning.

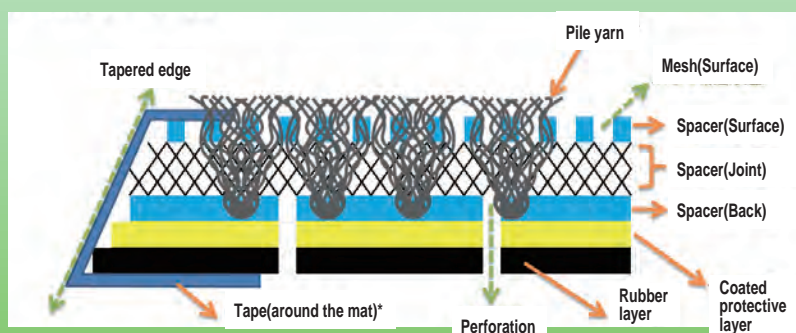

TECHNOLOGIES USED

1. PATENT 6062978: 3D knitting technologies applied to a flat surface
2. Specially engineered brushing technique used in the engineering of custom crafted pile yarn

How does it work?

STRUCTURE

*The tape is stocked in black only. but we can provide DTM colors upon request.

DETAILS

Compositon: Pile yarn/100% nylon
 Spacer/100% polyester
 Backing/100% styrene elastmer
 Tape/100% polyester

Size: 90 X 150cm

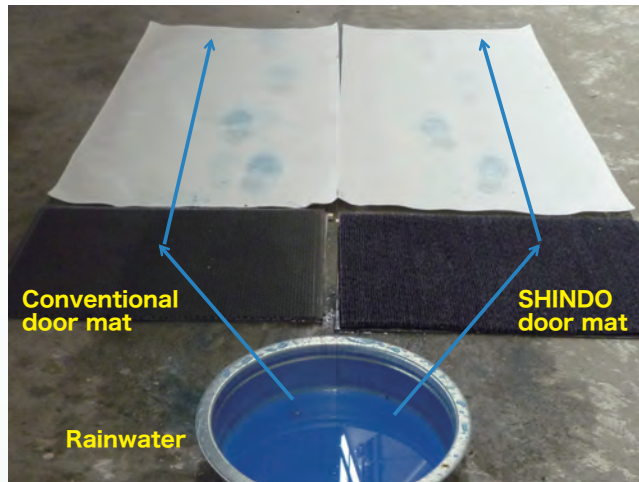

Thickness: 10~12mm

Weight: approx 4.7kg/pcs

Country of origin: Japan

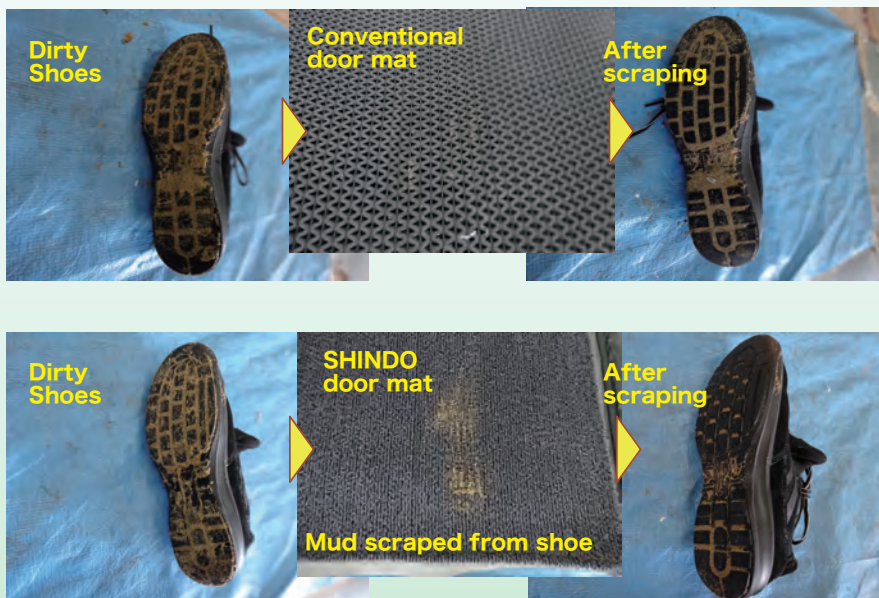

SHINDO

WATER DRAINAGE TEST

After stepping on the two mats with wet feet 50 times each, it becomes evident that SHINDO's mat drains water more efficiently than competitors' offerings.

DIRT REMOVAL TEST

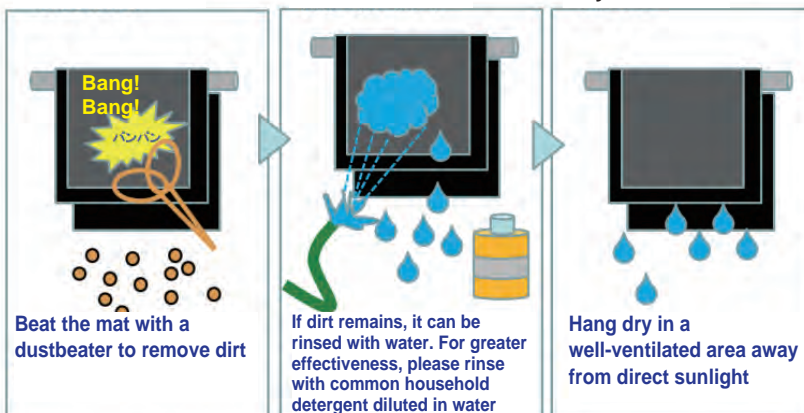

Our doormat offers the additional benefit of a textured surface that, by providing a greater surface area, one can scrape their muddy shoes against to remove dirt more effectively water more efficiently than competitors' offerings.

CARE INSTRUCTIONS

Remove excess dirt

Rinse with water

Dry

CAUTION

- Keep away from high heat and open flame
- Only for use on flat surfaces
- Not recommended for alternate use
